

# KITAS 2016 Meet the latest trend of mobile accessories in Korea!

SEOUL, KOREA, June 10, 2016 /EINPresswire.com/ -- As Samsung Electronics launched Galaxy S7 and LG launched G5, various peripheral devices are competitively launched these days. The 6th Korea IT Accessory & Smart Device Show 2016(KITAS 2016) will be run at COEX, Seoul from Jul. 28th to 30th which is supported by Korea ICT Device Industries Association with is theme 'FUTURE UNLIMITED.' The hero of this exhibition is a variety of smart device accessory and peripheral devices which co-works with IT devices.

At this KITAS 2016, smart sensor and smart car device special section is newly added to expand the displaying items. The smart sensor special section has IoT, wearable, mobile health care which is based on the energy harvesting/physics, chemistry, light, bio, beacon and smart sensor(acceleration, magnetic, gyro, motion, proximity, RGB, IR, hole, intensity of illumination, temperature and humidity, pressure, gas and biometric). The smart car device special section has various device, solution and services for connected car, including black box, OBD2, HUD, TMPS and car mirroring.

At last year KITAS 2015 was run from Aug, 20th to 22th and 38,327 people and 220 booths from 130 companies attended for three days. 12,604 domestic buyers and 114 global buyers participated in the event to make the new market. The companies who want attend in KITAS 2016 can get a discount until Mar. 31th and if they just want to apply for the event, the dead line is until Jul. 1st. Start-up booth will be run for the companies who has little products or only experimental products.

Sub events for KITAS 2016 are KITAS Top10 and KITAS Bag which selects 10 innovative products and promote them in domestic and international market. They have a lot of plans to provide various attractions.

The buyers or attendees who want to watch the even can enter the exhibition free after registering on the KITAS homepage and mobile page and then sharing it on the SNS.

Meanwhile, KITAS exhibition is a professional accessory and peripheral item show which can interwork with IT devices. It started from 2012 and greets its 6th Korea's only smart device exhibition this year. 1,000 products from 67 domestic companies were shown in 2012 and 2300 products from 130 companies were shown in 2015. In 2016, the most issued items like VR device, wearable device, IoT products, smart health care device, mobile accessory, pc items will be shown at the KITAS.
