

Private VPS hosting with connectivity over 1000 Mbps - AppOnFly

AppOnFly offers web connections of over 1 Gbps via its remote desktop service that allows the users to run virtual private servers starting from €8/month.

SAN FRANCISCO, CALIFORNIA, SPOJENÉ STÁTY, June 13, 2016 /EINPresswire.com/ -- [A virtual server with the Windows operating system for free](#) is an ideal tool to operate users' mobile office or any Windows software. If the user wants to run desktop applications continuously, for example stock exchange analytic tools and accounting or payroll systems, a windows server offers a reliable environment available at all times and accessible from anywhere.

AppOnFly is offering its customers a [free 30day trial for VPS hosting](#) via its remote desktop service with connections of over 1000 Mbps that allows the users to run virtual private servers. In this way, the AppOnFly users can take advantage of running a game or application server or surf the Internet with a private European IP address.

The connection to the AppOnFly servers is facilitated either directly from the web browser via html5 protocol, or through the AppOnFly .rdp file.

“

VPS with 1000 Mbps for as little as €8/month.”

Vaclav Svatek, CEO

Running a VPS server with the connectivity of over 1Gbps starts from as little as €8/month.

About AppOnFly:

Bringing you Windows apps from the cloud, faster and easier

than ever before.

Our mission has always been to make Windows apps more accessible for everyone. We believe that you should have the freedom and flexibility to pluck any [Windows software you need from the cloud](#), whenever and wherever you need it. Not only that, we don't believe that you should be forced into long-term financial commitments. We reckon that pay-as-you-go is the way to go.

The screenshot shows a speed test interface for SuperNetwork s.r.o. with a red circle highlighting the 'DOWNLOAD SPEED' (1054.13 Mbps) and 'UPLOAD SPEED' (994.04 Mbps) metrics. Below the speed test, there is a 'NEW SERVER' button and a 'TEST AGAIN' button. The interface also includes a survey link 'Take our Broadband Internet Survey!', a 'GET A FREE OOKLA SPEEDTEST ACCOUNT' section with an email input field and a 'CREATE' button, and a 'Prague Hosted by CMIS.cz' badge.

The diagram illustrates the setup process in three steps: 1. Sign up (with a 'Try one month free' link), 2. Connect (with the note 'A new browser window opens automatically'), and 3. Enjoy AppOnFly! (with the note 'Your apps are ready to use.'). The overall theme is 'Set up in seconds' with the subtext 'No downloading. No installing. No waiting.'

We first had the idea to deliver apps from the cloud way back in 2005 (light years in tech years!) and have been perfecting our platform for doing this ever since. The AppOnFly platform is now capable of delivering an ever-increasing choice of professional Windows apps from the cloud, within just a few seconds.

AppOnFly, Inc. is a privately owned company headquartered in San Francisco serving customers in North and South America, Asia Pacific and other countries worldwide.

AppOnFly s.r.o. was established in Prague, Central Europe, to serve customers in Europe, the Middle East and Africa.
