

United Kingdom Pressure Sensors Market 2016 Share, Trend, Segmentation and Forecast to 2022

Wiseguyreports.com add report on "United Kingdom Pressure Sensors Market" to its research database.

PUNE, INDIA, June 13, 2016 /EINPresswire.com/ -- The UK [Pressure sensors](#) market is expected to increase to \$0.56 billion by 2018 at a CAGR of 8.24% over the period 2014-2020. U.K.

dominates the market due to prominence of industrial sector in this country. Increasing demand from the automotive segment that uses pressure sensors to a greater extent for various applications (TPMS, exhaust gas pressure of EGR System). High growth in MEMS and piezoelectric pressure technologies are increasing the demand for pressure sensors, Pressure transmitters are incorporated with added functionality and along with pressure, can also monitor temperature variations, detect leaks and provide feedback to the control system. With end users looking for better asset management, such combination sensing systems will find greater demand in the future making the pressure sensors market to grow lucratively.

Currently, the market is dominated by Piezoresistive and Capacitive sensors as they are heavily used in automotive, medical, petrochemical, Oil and gas industries. Optical and resonant solid-state sensors are expected to exhibit high growth over the forecast period due to their applications in hazardous environments. Technological advancements and nanotechnology applications are the future opportunities for pressure sensor market.

The UK Pressure Sensors Market is segmented on the basis of Technology (Piezoresistive Sensors, Capacitive Sensors, Electromagnetic Sensors, Resonant Solid State Sensors, Optical Sensors and Others) and End User Industry (Medical, Industrial, Oil & Gas, Petrochemical, Automotive, Consumer Electronics and Others).

This report describes a detailed study of the Porter's five forces analysis, market segments, and current market trends. All the five major factors in these markets have been quantified using the internal key parameters governing each of them. It also covers the market landscape of these players which includes the key growth strategies and competition analysis.

The report also considers key trends that will impact the industry and profiles over 10 leading suppliers of Pressure Sensors Market. Some of the top companies mentioned in the report are Bosch (Germany), Honeywell International (U.S.), Freescale Semiconductor (U.S.), Infineon Technologies (Germany), Panasonic Corporation (Japan), and among others.

What the report offers

1. Market Definition for UK Pressure Sensors Market along with identification of key drivers and restraints for the market.
2. Market analysis for the UK Pressure Sensors Market, with region specific assessments and competition analysis on a regional scale.
3. Identification of factors instrumental in changing the market scenarios, rising prospective opportunities and identification of key companies which can influence the market on a regional scale.
4. Extensively researched competitive landscape section with profiles of major companies along with their strategic initiatives and market shares.
5. Identification and analysis of the Macro and Micro factors that affect the UK Pressure Sensors Market on regional scale.
6. A comprehensive list of key market players along with the analysis of their current strategic interests and key financial information.
