Asia Pacific represents the largest and fastest growing regional market worldwide with a CAGR of about 6.8% during the forecast period. Whereas, developing nations such as India and China are expected to have rising demand for lime sulfur in the coming few years majorly driven by increased green house horticulture industry. Additionally, the demand will remain high due to escalating need for higher yield for fulfilling the increasing food demand from the constantly growing population. China is the main producer of lime about 65% of world production share followed by U.S., India and Russia. Lime market is segmented by product, by application and by geography. Depending on the various products, market is segregated as agglomerated lime, calcined lime, hydraulic lime, lime sulfur, quicklime, refractory lime, slaked lime and others. Based on application, market is classified as agriculture, construction, environmental applications, glass, metallurgy, ore beneficiation, pulp and paper, refractory, steel production, sugar, water treatment and others. Based on geography, market is segmented into North America, Europe, Asia-Pacific and Rest of the World.
