

PipeMan Products, Inc. Becomes Distributor for PACE Roll Groover Machines

PipeManProducts.com is now an authorized distributor of PACE Roll Groover machines specializing in the 1039 Mini-Mite™ Portable Roll Groover machine.

CONCORD, CA, USA, June 14, 2016
/EINPresswire.com/ --

PipeManProducts.com has been approved as an authorized distributor of the industry leading PACE Roll Groover machines specializing in the 1039 Mini-Mite™ Portable Roll Groover available in five configurations.

"PipeManProducts.com has done an excellent job in educating the waterworks industry of our many innovative plumbing products and tools. We are proud that they have decided to add our PACE Roll Groover machines to their line-up."

Jim Jenkins, Sales Manager - Pace-ASP.

Pace Portable Roll Groover

The PACE 1039 Mini-Mite™ self-contained portable Roll Groover is two tools in one. It features rugged construction with a larger top roller bearing, heavier top slide, and more material in the housing to make for more durability. And all hex drives on this robust unit are 15/16" so one wrench fits everything!

The PACE 1039 Mini-Mite™ Portable Roll Groover goes anywhere power is unavailable. It also has the ability to chuck in a Rigid 300 - in just seconds (no gearbox removal).

The PACE 1039 Mini-Mite™ is simple to operate. It has five configurations for almost any job.

1039-00 Mini-Mite™ for 1-1/4" - 6.00" Schedule 40/Thin Wall Steel Pipe

1039-66 Mini-Mite™ for 2.00" - 8.00" Copper Tube

1039-812 Mini-Mite™ for 8.00" - 12.00" Schedule 10 Thin Wall Steel Pipe NEW!

1039-99 Mini-Mite™ for 1-1/4" - 6.00" Schedule 40/Thin Wall Steel Pipe & 2.00" - 8.00" Copper Tube

1039-112 Mini-Mite™ for 1-1/4"-6.00" Sched 40, 1-1/4"-12.00" Sched 10 and 2.00"-8.00" Copper tube

The Pace 1012 Roll Groover is the ultimate unit when your grooving needs require 1" through 12" Schedule 40, Roll Grooving. The Pace Design, with new hydraulic ratio along with advanced spindle

design allows greater strength and pressure in a compact package for grooving up to 12" Schedule 40, using a standard model RIDGID 300.

A hydraulic hand pump will deliver increased pressure for grooving up to .406 wall pipe to specifications quality grooves. Top and bottom roll change is made easy with cross taper pin in the bottom roll and socket set screw in the top roll for positive no slip design. Like all Pace Roll Grooving tools, the model 1012 is ruggedly built to deliver long, trouble-free service.

Machine Capacity:

1" through 12" SCHD 40 (10mm)
Grooved Depth Gauge-Steel
Hydraulic Hand Pump
Shipping/Storage Box
1"-12" Sched 40 Top and Bottom Rollers
Optional 2" through 8" Copper Tubing K, L, M and DWV
Optional 2"-12" 10 Gauge Stainless Steel

The Pace Model 1112 requires just three Top Rollers and three Bottom Rollers to produce specification quality grooves in pipe from 1" through 12" diameter Schedule 40. Easily portable for on-the-job work, the Model 1112's electric motor rotates pipe at speeds of 35 RPM. The hand hydraulic pump will deliver up to 15,000 psi pressure at the point of roll grooving. Like all PACE Pipe Grooving Machines, Model 1112 is ruggedly built to deliver long, trouble-free service.

Machine Capacity:

1" through 12" SCHED 40 (10mm)
Optional 2" -8" Copper Tubing K, L, M and DWV
Optional 2"-12" 10 Gauge Stainless Steel

Whatever your roll groover machine needs from mini portable to heavy duty electric units, Pace and PipeMan Product has it for you.
