

MAX DISTANCE GOLF & MATT "HANGMAN" HANGER DEVELOP NEW POWER SWING SYSTEM TO GUARANTEE LONGER GOLF DRIVES

GOLF'S LONG DRIVE GURU MATT HANGER SHARES THE SECRETS TO HIS 400 YARD DRIVES AT MAXDISTANCEGOLF.COM

LOS ANGELES, CA, UNITED STATES, June 14, 2016 /EINPresswire.com/ -- Max Distance Golf has teamed up with 2-time RE/MAX Long Drive Finalist, Matt "Hangman" Hanger to develop a new power swing system that [guarantees longer drives](#) without increasing a golfer's swing speed. Focusing on the key physics of ball flight, the Max Distance System teaches golfers how to optimize their swing to achieve their maximum potential distance off the tee, regardless of age, strength or level of ability.

Through instructional videos, lesson guides and personalized swing analysis, Max Distance Golf teaches the same principles and techniques Hanger has used to become one of the longest hitters in the world.

"There is so much conflicting and false information out there on how to gain distance off the tee," said Hanger. "After spending years developing and perfecting my long drive techniques, I'm thrilled to have the opportunity to share everything I've learned with golfers around the world. This could be a real game changer for a lot of folks."

Unlike conventional swing training systems, Max Distance Golf focuses on one thing: hitting the driver far. If you are looking for putting and chipping tips, you should look elsewhere. But, if you want to learn how to bomb your driver, Max Distance Golf has everything you need.

For less than it costs for a lesson with a local instructor, Max Distance Golf members receive step-by-step video instruction from one of the preeminent long drivers on the planet, detailed lesson guides, and two personalized swing reviews per month.

It looks like Max Distance Golf could be a big-time player in the world of online golf instruction.
