CIO

position at a billion-dollar heavy equipment reseller. After a major security breach, the company was looking to immediately hire an expert and reached out to ARC Group to fill the position. ARC Group was able to provide several qualified, passive candidates from competitors within the first week. By the 2nd week, ARC Group completed filling the position. This beat out the company's own internal recruiting efforts and internal candidates as well as other staffing

agencies and temp agencies.

"This was the best recruitment experience we've had so far this year," said the CIO.

ARC Group first made a name for itself in the staffing industry by filling difficult positions and winning over clients. "After having such resounding success they have now given us addition, hard-to-fill positions to work on," says Gregg Podalsky, President.

In its 34 years of business, ARC Group has filled numerous IT manager and security manager positions across a variety of industries and is known as a staffing agency that can fill positions quickly.
