

International Assisted Reproduction Meeting at Sri Lanka

Announcing the Second World Congress on Embryo Transfer & Intrauterine Insemination at Ahungalla, Sri Lanka

AHUNGALLA, SRI LANKA, June 18, 2016 /EINPresswire.com/ -- Reproductive health professionals receive training in various aspects of Assisted Reproductive Technology and other procedures comprising infertility treatment. There is, however, a widespread gap in training in Embryo Transfer. The IVF Lite Foundation has announced [The Second World Congress on Embryo Transfer & Intrauterine Insemination](#) to be held from 8th to 11th December at the Heritance Ahungalla, Sri Lanka. The objective of this unique landmark Meeting for ART professionals who perform the Embryo Transfer procedure is to learn the common best practices in Embryo Transfer.

The main Meeting at the Heritance Ahungalla, South Sri Lanka, will have two halls running simultaneously; in one all aspects of Intrauterine Insemination will be discussed threadbare & in the other hall, the focus will be exclusively on Embryo Transfer & its role in Assisted Conception. The main objective of this Meeting is to give an updated overview on all aspects of Intrauterine

Insemination (IUI) & Embryo Transfer (ET). Emphasis will be given on interactive discussions between participants and experts on practical issues of the subjects under discussion. The target audience of this meeting is the Clinicians, Laboratory Staff, Nurses, Coordinators & other related persons working in the field of Assisted Reproduction & Intrauterine Insemination. The meeting website is live at www.weti.org

The IVF Lite Foundation - a non-profit Registered Charity with the Government of India is endorsing the Congress & the Conference Abstracts will be indexed in the Journal of Minimal Stimulation IVF (IVF Lite).

After a six year hiatus, the Scientific Committee at IVF Lite Foundation have designed a very busy & contemporary academic program on the subject: The Second World Congress on Embryo Transfer & Intrauterine Insemination. This has been done in conjunction with the Italian society of Sterility & Fertility (SIFES), Turkish Society for Reproductive Medicine (TSRM), Society of Cross Border Reproductive Care (SCBRC) & the World Association of Reproductive Medicine (WARM). The entire event is organized by the International Medical Event Management Company: [Zimt Conferences & Seminars Organizing Company](#), Dubai who have successfully conducted the WOOSP meetings globally.

A dedicated Hall for topics pertaining to IUI on all the meeting days aims to make an update on the

weti 2016
Second World Congress on Embryo Transfer & Intrauterine Insemination
December 8-11, 2016, Sri Lanka

Endorsed by IVF Lite Foundation, India

Academic Partners

- Fertility - The Center For Human Reproduction, Mumbai, India
- Italian Society of Sterility and Fertility (SIFES)
- Turkish Society for Reproductive Medicine (TSRM)
- Society of Cross Border Reproductive Care (SCBRC)
- World Association of Reproductive Medicine (WARM)

Organized by
Zimt Conferences & Seminars Organizing Co, Dubai

Scientific Program Highlights

- Evidence-based data on the value of IUI
- Health economics & cost-effectiveness of IUI
- Methodological aspects & newer sperm preparation techniques
- Prevention of infection in IUI
- Media supplements and anti-oxidants
- Factors influencing success rates
- CMR guidelines for IUI
- IUI for lesbians & singles
- Lowest IUI options in resource-poor countries
- Associated ovarian stimulation protocols
 - Embryo Transfer: Art or Science?
 - Does Men's Buffer or Ultrasound Guided Embryo Transfer?
 - Embryo Selection Societies
 - Hysteroscopy Guided Embryo Transfer?
 - Construction & Biomechanical Advances in ET catheters
 - Blood on the embryo transfer catheter
 - Endometrial Secretion: Aspiration at time of ET
 - Is routine use of ET catheter styler good medical practice?
 - Sequential Embryo Transfers: should be the norm?
 - New advances in PGD: Do they prevent a disaster for couples and clinicians?
 - Egg freezing: Dos & Don'ts

Learning Objectives

Upon attending this meeting, the participant will be able to:

- Know the correct techniques of sperm preparation for IUI
- Learn the GMP based indications for IUI
- Delineate the correct techniques of IUI
- Master the correct ovarian stimulation protocols for IUI versus IVF
- ART professionals who perform the embryo transfer procedure will learn the common best practices in embryo transfer
- Learners will know how to overcome difficult ETs and learn how to develop motor and cognitive skills for performing "steep" embryo transfers.
- Physicians will learn the finer nuances of ultrasound-guided ETs and the correct indications for use of different ET catheters.
- The goal is for practitioners to improve their embryo transfer technique.
- At the conclusion of the meeting, participants should be able to describe the correct steps in the embryo transfer & intrauterine insemination procedure in humans and discuss best practices in IUI & ET in humans.

Early Bird Registration will end a hot USD 200 discount till November 30, 2016

Authors whose papers are accepted for publication in the Journal of Minimal Stimulation IVF (IVF Lite) will also receive a hot USD 200 discount
