[Revenue Cycle Management \(RCM\) System](#)

Summary

Wiseguyreports.Com Adds "Revenue Cycle Management (RCM) System -Market Demand, Growth, Opportunities, and Forecast, 2016 - 2020" To Its Research Database.

Revenue cycle management (RCM) system is used for tracking financial records in healthcare facilities. The system includes tracking from registration and appointment to final payment of services. It integrates business sides and clinical sides, such as personal information of patients, insurance provider, and treatment received by patients. The time between providing service and receiving payment is reduced by interfacing various IT systems together. Patients can pay bills online, receive updates about upcoming appointments, and lessen the amount of denied claims with the help of RCM system.

The decrease in reimbursements and initiatives undertaken by governmental bodies for implementing RCM solutions are factors driving the growth of the Asian RCM market. However, limited investments in healthcare IT industry, high costs, and fragmented end-user market are hindering the growth of the market. The adoption of new and updated versions of RCM solution

creates opportunities in the market.

The Asian revenue cycle management (RCM) system market is segmented based on product, component, deployment, end user, and country. The product segment is further classified into integrated RCM and standalone RCM. The components covered in the report are services, software, and hardware. On the basis of deployment, the market is further classified into web-based, on-premise, and cloud-based. End users included in the report are academics, ambulatory care solutions, hospitals, medical & diagnostic laboratories, and office based physicians. The market is segmented based on countries into Japan, China, India, and Republic of Korea.

Quest Diagnostics, Cerner Corporation, McKesson Corporation, Athenahealth Inc., Allscripts Healthcare Solutions Inc., eClinicalWorks LLC, CareCloud Corporation, The SSI Groups Inc., GE Healthcare, Epic Systems, Siemens Healthcare, and Kareo Inc. are some of the prominent manufacturers operating in the market. They have adopted strategies, such as partnerships, mergers & acquisitions, agreements, expansions, joint ventures, and others to gain strong foothold in the market.

KEY BENEFITS

The report offers an in-depth analysis of key driving and restraining factors of the Asian revenue cycle management (RCM) system market.

This report offers an in-depth quantitative analysis of the current market and estimations through 2015 and 2020, which assists in identifying the prevailing Market - Opportunities. The report provides an extensive analysis of current and future market status of the Asian revenue cycle management (RCM) system market.

An in-depth analysis of current research and clinical developments within the Asian revenue cycle management (RCM) system market is provided with key market dynamic factors that help in understanding the behaviour of the market.

An in-depth analysis of key strategies adopted by leading manufacturers helps in understanding competitive scenario.

Comprehensive analysis has been done in this report by constructing market estimations for the key market segments between 2015 and 2020.

The Asian revenue cycle management (RCM) system market is segmented into Japan, China, India, and Republic of Korea.
