

# Mosquito Shield and TopFire Media team up for winning combo

*Booming mosquito control franchise brings concept to International Franchise Expo New York 2016*

NORTH ATTLEBORO, MASSACHUSETTS, UNITED STATES, June 21, 2016 /EINPresswire.com/ -- [Mosquito Shield Franchise Corporation](#) has announced continuation of their successful collaboration with TopFire Media, an award-winning, integrated public relations and digital marketing agency.

“We’ve seen unprecedented interest in our franchise concept in 2016, and we credit TopFire Media for playing such a pivotal role in that success,” said [Mosquito Shield](#) Vice President Michael Moorhouse. “We look forward to working with TopFire for a long time to come.”

Mosquito Shield added twelve new franchises in the last six months bringing the nationwide total to more than 40 locations.

To answer the growing demand for mosquito control services, Mosquito Shield showcased its innovative product and service at the 2016 International Franchise Expo in New York.

“Trade shows are a great way for prospective franchisees to have a look at our offering and learn about the benefits,”

Moorhouse said. “Particularly as demand for mosquito control has increased this year, we were excited to show Mosquito Shield to the crowds at this year’s IFE.”

Mosquito Shield franchise opportunities are available across the country and in key markets of Illinois, Maryland, Indiana, Michigan, Minnesota, New York, North Carolina, Virginia, and Wisconsin. ## About Mosquito Shield

Mosquito Shield is a mosquito and tick control franchise company that uses professionally-applied mosquito spray to kill and repel mosquitoes and ticks. Using a three-pronged approach and a one-of-a-kind protection blend treatment, Mosquito Shield masks carbon dioxide — which attracts mosquitoes — and repels them away from the property. The

spray adheres to vegetation, wood, stone/brick and other organic materials, creating a vertical barrier

that strengthens with each visit.

Only Mosquito Shield uses FlexBlend™ spray technology and monitors both mosquito population and weather conditions to maximize effectiveness, making adjustments when needed, to deliver superior results and satisfaction.
