

New Service Provider Offers the Ultimate in Convenience for Car Owners

Motor Quoters brings new customers a way to enjoy a stress free, convenient, MOT or car service through the website's unique features and offerings.

LONDON, UNITED KINGDOM, June 21, 2016 /EINPresswire.com/ -- In a technological age it's still surprising that many of our daily tasks are so time consuming and inconvenient. While we can shop online and organise events with ease in minutes, there's still a gap in the market when it comes to supplying a trusted, convenient, [car service](#).

[Motor Quoters](#) aims to fill this gap by offering customers a new, more advanced, way to book an MOT or car service. With the focus on the ultimate convenience, Motor Quoters allows the customer to enjoy a delivery and collection service from their local garages.

How it Works

Customers visit the Motor Quoters site and choose their options. They can then see the desired results of garages who offer a pick up and drop off service, along with the garage's name, price and location.

Customers can also filter results by price or proximity, depending on what is the most important to them when booking a car service or MOT. Once the garage is decided, the customer can then book immediately through the website and receive written confirmation via email.

Motor Quoters transparent pricing, trusted rating and commitment to involving the customer every step of the way makes this a service that's currently in demand by busy professionals, students and working parents.

The founder, Fida Chishti, explains what he envisaged when launching www.motorquoters.com Motor Quoters, he says, "Transparency and trust are the two most important factors of our service alongside convenience. We want to build a loyal relationship with our customers and provide a service that makes life easier. This is why we give all prices up front and never try to upsell to the customer. Our service is completely free and we don't add on any fees for ourselves. You receive the same price as if you were booking with your local garage, except with added convenience and a dedicated customer support person."

The onus is on convenience for the car owner, with many of Motor Quoters garages offering to pick up the car and return it the same day. This collection and delivery option allows the customer to continue with their daily lives without taking time out of work or from the home, for their car service or MOT.

Right now, Motor Quoters is facilitating a more convenient, cheaper, [car service and MOT](#) for car owners in London, while naturally expanding to offer these modern features to car owners across the whole of the UK.
