

Treblab Announces True HD Wireless Headphones with 9 Hour Battery

MIAMI, FLORIDA, UNITED STATES, June 25, 2016 /EINPresswire.com/ -- [Treblab](#), a personal audio products company focused on comfort and high quality sound, has announced the launch of its [TREBLAB XR100](#) True HD Solid Sound Bass Wireless Headphones on Amazon. The product includes a 9-hour battery and microphone. The noise cancelling system maximizes the quality and experience as well, enabling people to enjoy music and conversation in any environment.

Providing high definition sound, these sweat-proof headphones use Bluetooth 4.1 CSR technology. They also support apt-X technology. The result is superior quality treble and bass. No wires are necessary. On a 2-hour charge, music can be played for up to 9 hours. Users can listen to music or talk on the phone for the full running time, and see the battery capacity on their device. The signal range is up to 38 feet.

The earbuds are made of silicone and the product has a soft rubber finish, so users can wear the headphones all day without discomfort. They can even be used during exercise, thanks to the secure hooks built into the design. The expandable foam tips also help to keep out ambient noise.

In addition, the unit includes phone controls, including volume, call

answering, pause, skip, and forward/backwards. The product can connect with multiple devices, ensuring customers the most convenience possible. Also, the system provides in-ear voice prompts to make operation simple.

Treblab has included a full, one-year manufacturer's warranty with the TREBLAB XR100 True HD

Solid Sound Bass Wireless Headphones. Customers also get the benefits of free shipping on this deeply discounted product.

The product can be purchased now on its Amazon page at <https://www.amazon.com/XR100-Headphones-Microphone-Cancelling-Sweat-Proof/dp/B019DB5QQ4>, for \$59.95 each. For 25% off, use the discount code VKCS98ZT at purchase.
