

Will Islam FUEL World War III?

Countries around the world are beginning to confront the Islamic incursion of their values and freedoms.

FOUNTAIN VALLEY, CALIFORNIA, UNITED STATES, June 26, 2016 /EINPresswire.com/ -- FOUNTAIN VALLEY, CALIFORNIA, UNITED STATES, June 27, 2016 /EINPresswire.com/ -- Orange County, Calif., June 29, 2016 --[Nicholas Ginex](#), author of [Allah, We, Our and Us](#) surfaces the ugly truth that Islam is a cancerous growth that insidiously affects many countries around the world because Muslims will not integrate and assimilate the cultural values and laws of other people. This is a reality that is driven by an ideology documented in the Qur'an and implemented with Sharia law. Unable to define the Islamic threat and unwilling to classify terror attacks in America as motivated by Islamic beliefs, President Obama has publically stated to the American people:

"The United States is not and will never be at war with Islam."

"Islam is a religion that preaches peace." and,

"Islam is a religion of peace."

For an educated man, Obama has had a poor schooling of the history of Islam. He appears to be unaware that after the death of Muhammad in 632 CE, in only 29 years, the fifth Muslim leader, Muawiya ruled an Islamic empire that extended over an enormous territory, stretching from India to Spain.

Motivated by power and wealth, by 750 CE, Muslim leaders forced conversion to Islam in all conquered territories by presenting two alternatives: death by the sword or pay a tax. The Islamic Theocratic Empire extended from the Byzantine and Persian empires, and continued along the

Mediterranean as far west as Spain and all of North Africa, including its east coast down to the island Madagascar, and further east to the northern half of India.

Allah, We, Our and Us presents a history of Islam and many abominable passages of the Qur'an. The Islamic objective to dominate all other religions is driven by the Quran extolling a belief that Islam is the only true religion, the religion of truth, and will prevail over all other religions (Qur'an 9:29 and 9:33). In light of the Qur'an's objective of world domination, Americans must question why does President Obama publically proclaim Islam is a religion of peace?

Not revealed by the liberal media, as a young boy, Obama was registered as a Muslim in elementary school where he was taught daily to read and write in Arabic, read and recite the Qur'an, and study the laws of Islam. This early indoctrination has greatly influenced his affinity for Islam and the Muslim people.

Unfortunately, Obama's schooling lacked Islamic history and his early indoctrination of the Qur'an may be reason for his arrogance to proclaim Islam is a religion of peace. It is this arrogance that explains why he negotiated the Obama-Iran Nuclear Deal while Iranian leaders and Muslims chanted, "Death to America and Death to Israel!!"

According to Obama, "The United States is not and will never be at war with Islam." However, WWII will become a reality by the incessant advance of an Islamic cancer that has already destroyed cities in many countries. Two of many verses in the Qur'an, clearly show how the minds of Muslims are indoctrinated to kill those who do not follow Islam:

Sura 7:5-7: Little is it that you heed. How many a town have We destroyed! Our punishment came upon their dwellers by night or while they slept at noon. When Our punishment came upon them all they could utter was: We are indeed wrongdoers.

Sura 7:97-100: We afflicted them suddenly with chastisement, while they perceived not the cause thereof. If the people of those towns had believed and been righteous, We would surely have bestowed blessings upon them from heaven and earth, but they rejected the Prophets, so We seized them because of that which they did.

War will commence after Iran and militant Islamic extremists have grown to such an extent by aggressive force that many free-loving countries will have to defend their people and land by fighting back. The U.S and its allies will, out of necessity, fight those countries supporting Islamic terror because they will have no alternative.

In addition to the U.S., Israel, Germany, France, Canada, Spain, Australia, Russia, China, United Kingdom (England, Scotland, Wales and Northern Ireland), Sweden, Switzerland, Belgium, Norway, Finland, Bulgaria, and even Egypt and Jordan may become part of the coalition force to combat Islamic aggression. Many countries have already felt the threat and loss of their sovereignty as Muslims migrate into their lands and refuse to integrate and accept their laws and cultural values. This outcome has been documented in the October 2015 publication of Obama, Islam and Benghazi.

Americans and Muslims must jointly assess the Islamic problem and acknowledge that it is the Qur'an that is the source of discontent around the world. Addressing this fact leads to a solution that cries out to those with rational minds; revise the Quran to eliminate many abominable verses and stress God's greatest command – love one another.
