

# Intratec Discloses Costs of Vinyl Chloride Production From Ethylene

---

*New report details capital investment and operating costs of a VCM Plant*

HOUSTON, TX, USA, June 29, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to announce a new report examining the costs of production of Vinyl Chloride (Vinyl Chloride Monomer – VCM).

The new report presents the economics of Vinyl Chloride production from ethylene in the USA. The process under analysis is a typical balanced process, which combines two ethylene dichloride (EDC) production routes (direct chlorination and oxychlorination) with the Vinyl Chloride production via EDC thermal cracking. This detailed study presents plant construction cost, Vinyl Chloride production cost breakdown, and raw materials consumption figures. It may be extended with supplemental analyses, such as Process Flow Diagrams & Equipment List and Utilities Consumption Breakdown, among others.

The new study is now part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards.

The content of the new report can be checked at [www.intratec.us/analysis/vcm-e41a](http://www.intratec.us/analysis/vcm-e41a)

For other Intratec reports focused on the costs of production of Vinyl Chloride, via other manufacturing processes and/or different raw materials, visit [www.intratec.us/analysis/vinyl-chloride-production-cost](http://www.intratec.us/analysis/vinyl-chloride-production-cost)

About Intratec Solutions LLC

Intratec ([www.intratec.us](http://www.intratec.us)) is an independent research and leading advisory firm, recognized for excellence in the evaluation of chemical markets and the economics of industrial processes. Since 2002, the production cost reports and online databases we provide have boosted the early recognition of promising research and capital investment opportunities in the chemical, petrochemical, oil, plastic, renewable, alternative energy & allied sectors.
