

PlayerXtreme Pro - The Video Player everyone was waiting for

It is a Video player for elegant iPhone, iPad and Android. It allows the users to watch their movies on the go from anywhere even if they're in any format even.

NEW YORK, NEW YORK, UNITED STATES, June 30, 2016 /EINPresswire.com/ -- [PlayerXtreme Pro](#) is the product for which smartphone user was waiting for. The wait is over and Xtreme media works proudly presents the latest upgraded version of PlayerXtreme Pro. Yes! Its live so download PlayerXtreme and make your iPhone, iPad or Android devices eligible to watch movies on the go, from anywhere even if they're in any format. This Premium Video player is created to play every format of videos even if they don't normally play or even sync with Android and iOS devices. It also makes a user eligible to start transferring & watching your favorite movies without conversion.

It covers all the following formats:

3gp, asf, avi, divx, dv, dat, flv, gxf, m2p, m2ts, m2v, m4v, mkv, moov, mov, mp4, mpeg, mpeg1, mpeg2, mpeg4, mpg, mpv, mt2s, mts, mxf, ogm, ogv, ps, qt, rm, rmvb, ts, vob, webm, wm, wmv

PlayerXtreme Pro has a user friendly interface similar to Mac Finder/Windows and it is handy to organize your movie collection. It also has a new navigation and search option which enhances the user experience. This cross platform application comes up with SMB, UPNP and Wifi Support. The users can access the files from browsers and they have the liberty to map their

PlayerXtreme Media Player - The best player of movies, videos, music & streaming

PlayerXtreme Media Player - The best player of movies, videos, music & streaming

The users can access the files from browsers and they have the liberty to map their

library as drive. The user can also add files from PC to their iPhones which is another great enhancement in mobile video player applications.

This video application is totally secured, you have to just Setup a Passcode on your library to restrict anyone from accessing your folders/files. The users can enable guest access but Hidden folders are not visible to guest users. The users can create local networks on their own in order to play data from their PCs and Laptops on the mobile devices.

There are more features yet to be revealed. So, stay tuned!
