

Intratec Discloses Costs of Nitrobenzene Production From Benzene

New report details capital investment and operating costs of a Nitrobenzene Plant

HOUSTON, TX, USA, July 6, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to announce a new report examining the costs of production of Nitrobenzene.

The new report presents the economics of Nitrobenzene production from benzene and nitric acid in the USA. The process analyzed in this report is similar to NORAM's adiabatic benzene nitration process, which uses a plug-flow nitrator containing jet-impingement elements. This detailed study presents plant construction cost, Nitrobenzene production cost breakdown, and raw materials consumption figures. It may be extended with supplemental analyses, such as Process Flow Diagrams & Equipment List and Utilities Consumption Breakdown, among others.

The new study is now part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards.

The content of the new report can be checked at www.intratec.us/analysis/nb-e11a

For other Intratec reports focused on the costs of production of Nitrobenzene, via other manufacturing processes and/or different raw materials, visit www.intratec.us/analysis/nitrobenzene-production-cost

About Intratec Solutions LLC

Intratec (www.intratec.us) is an independent research and leading advisory firm, recognized for excellence in the evaluation of chemical markets and the economics of industrial processes. Since 2002, the production cost reports and online databases we provide have boosted the early recognition of promising research and capital investment opportunities in the chemical, petrochemical, oil, plastic, renewable, alternative energy & allied sectors.
