

Solvegy Launches New Custom & Responsive Website

WASHINGTON, DISTRICT OF COLUMBIA, UNITED STATES , July 6, 2016 /EINPresswire.com/ -- Washington, DC – Solvegy, Inc. is pleased to announce the launch of its new public website (<http://www.solvegy.com>) which provides a rich professional image for its visitors. Solvegy, a management and technology consulting firm, invites guests to explore its new website with its refreshed user-friendly experience. The updated site includes several cutting

edge technologies, including a complete alteration of content and design that provides for easier navigation throughout the site. Additionally, the new site enables customers to access detailed information and integrates with all major social networking sites.

One of the key focuses of the new website is to provide relevant information that gives clients and prospective employees a look into the firm's expertise and experience. The most valuable update can be visible in the site's graphics and layout, with a new, cleaner, easier-to-navigate design implemented across all pages with key areas presented at the top. By using this technology and a responsive design, the site automatically adjusts and resizes on any browser or mobile device.

"I am proud of our team that worked tirelessly to get the new Solvegy.com launched. In our business, internal systems and platforms often get neglected as our clients are always the focus. It's truly a case of The cobbler's children having no shoes. However, over the last 8 weeks, our management team has focused on setting up several of our systems for growth and our website is just one of those efforts," said Solvegy's founder Dipesh Patel.

Lastly, the fresh renovated website's look and feel is meant to be consistent with Solvegy's brand. The cleaner, fresher look symbolizes the company's commitment to staying up to date with technology along with highlighting the efficiency and effectiveness of its team.

To learn more about Solvegy or to discuss your strategic technology needs visit our new website at www.solvegy.com. Dipesh can also be reached directly at Dipesh.patel@solvegy.com.
