

# Global Computer on Module Market 2016 Analysis and Forecast to 2020

---

*Wiseguyreports.Com Adds "Global Computer on Module Market" To Its Research Database.*

PUNE, INDIA, July 11, 2016 /EINPresswire.com/ -- [Computer on Module](#) (COM) Industry

## Summary

Analysts forecast the Global Computer On Module (COM) Market to grow at a CAGR of 17.97% during the period 2016-2020. A COM, or system on module (SOM), is a single board computer, which is a subtype of an embedded computer system. COMs are used in various embedded applications such as industrial automation, medical equipment, gaming devices (slot machines), servers, workstations, and rackmounts. They are built on a single circuit board and consist of a single processor, random access memory (RAM), and input and output controllers. However, COMs lack the standard connectors required for connecting input/output peripherals to the board. Hence, they need to be mounted on a carrier board to connect to standard peripheral connectors. Certain COMs have peripheral connectors and do not require a carrier board. In certain configurations, the baseboard is connected to a backplane, which allows connectivity to other peripheral devices. Also, some rackmount computer designs that use COMs use backplane connectivity. Backplane connectivity provides many functionalities such as better power connectivity, LAN connectivity from backplane, and improved modular design that allows plug-and-play features to increase computing capacity.

## Covered in this report

The report covers the present scenario and the growth prospects of the global computer on module (COM) market for 2016-2020. To calculate the market size, the report considers revenue generated from the shipment of COM based on the following standards:

- COM express
- Smart Mobility ARChitecture (SMARC)
- Qseven
- Embedded Technology eXtended (ETX)
- Others

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Global Computer On Module (COM) Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

## Key vendors

- Congatec

- Kontron
- MSC Technologies

#### Other prominent vendors

- Adlinktech
- Avalue
- Phytex
- Portwell

#### Market driver

- Longevity and reliability of COMs
- For a full, detailed list, view our report

For more information or any query mail at [sales@wiseguyreports.com](mailto:sales@wiseguyreports.com)

#### Market challenge

- Failure in forecasting market demand
- For a full, detailed list, view our report

#### Market trend

- Advances in transistor technology
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

#### About Us

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports understand how essential statistical surveying information is for your organization or association. Therefore, we have associated with the top publishers and research firms all specialized in specific domains, ensuring you will receive the most reliable and up to date research data available.
