

Trump Super PAC, Get Our Jobs Back Inc., Race Problem Solution, Under President Donald Trump Think Tank Team

NEW YORK, NY, 10016, July 11, 2016 /EINPresswire.com/ -- Get Our Jobs Back / <http://getourjobsbackinc.com/> / -- The recent killings of both African Americans by police officers, and the killings of Dallas police officers by armed gunmen is unprecedented. These events have once again stirred the nation's concern over the racial divide between police officers and African-Americans. As the primary victims, African-Americans have been voicing their concerns for some time now as the current administration lacks the ability to lead and unite the country during times of crisis. Get Our Jobs Back Inc. Trump Super PAC stands with all African-Americans throughout the United States who have been deprived of justice, due to their race or color. The CEO of Get Our Jobs Back Inc. Trump PAC, Steven Hoffenberg, spent over a decade in Federal Prison. While incarcerated, Mr. Hoffenberg witnessed the abuse of many inmates simply due to the color of their skin.

President Trump stated on his Facebook page, "Last night's horrific execution-style shootings of 12 Dallas law enforcement officers – five of whom were killed and seven wounded- is an attack on our country. It is a coordinated, premeditated assault on the men and women who keep us safe. We must restore law and order. We must restore the confidence of our people to be safe and secure in their homes and on the street...Our nation has become too divided. Too many Americans feel like they've lost hope. Crime is harming too many citizens. Racial tensions have gotten worse, not better. This isn't the American Dream we all want for our children. This is a time, perhaps more than ever, for strong leadership, love and compassion. We will pull through these tragedies."

Law Enforcement Solution

When the police require a traffic stop, commonly known as being pulled over, a temporary detention of a driver takes place to investigate a possible crime or minor violation of law. One solution, under this growing crisis, will be for police officers to reenforce the loudspeaker method. The loudspeaker is a megaphone, installed between police rooflights, and is able to produce powerful "voice-range" sounds at very high pressures. These methods are used to instruct drivers to exit their vehicles, which allow police officers, to better evaluate traffic stops and to obtain license and registration information more safely, securely and without incident.
