

# New Report on Global Software License Management Market 2016 Edition

*Latest News on Software License Management Industry Global Research Report 2016*

PUNE, INDIA, July 12, 2016 /EINPresswire.com/ -- Wise Guy reports: [Software License Management](#) Market - Global Industry Analysis, Size, Share, Growth, Trends and Forecast 2016 – 2020. Analysts forecast the global software license management market to grow at a CAGR of 8.8% during the period 2016-2020. The major drivers for the adoption of software licensing are piracy and malware. Software licensing acts as an agreement to solve these issues. It provides the rights to use packaged software or components of software. The use of a software without proper licensing would constitute an infringement of copyright laws. All enterprise applications are offered to end-users through licenses. Software licenses are of different types; some are based on the number of users that are allowed to use the program and others are based on the number of systems on which a program can be run.
