

Mark Systems Home Builder Software Earns 2016 Constructech 50

Mark Systems' IHMS Earns Constructech 50 Designation for Seventh Straight Year

MOUNT HOLLY, NEW JERSEY, UNITED STATES, July 14, 2016

/EINPresswire.com/ -- Mark Systems, the leading provider of ERP home builder software, is recognized today in Constructech magazine's '[Constructech 50](#),' a prestigious list of the top technology providers for the construction industry.

Constructech magazine released the first Constructech 50 list in 2010. Mark Systems is one of only 12 companies to make the list each of the seven years.

“

While our position in the construction technology space has always been strong, we are gaining momentum with builders who are looking for an all-in-one solution tailored to how they currently operate.

Scott Duman, President & CEO, Mark Systems

“While our position in the construction technology space has always been strong, we are gaining momentum with builders who are looking for an all-in-one solution tailored to how real home builders operate. With the [acquisition of LotVue](#), we bring additional functionality to builders and are now able to work with developers as well,” said Scott Duman, President & CEO at Mark Systems.

Mark Systems' IHMS was also recognized in the Constructech IT Playbook where it topped multiple categories for residential construction including Estimating, Project Management, CRM, and Mobile Software.

With over [600 separate system enhancements](#) to IHMS in 2015 and even more to be released in 2016, including a new LotVue product family of apps, Mark Systems continues to deliver the best in class home builder software and service to the residential construction industry.

About Mark Systems

Mark Systems' Integrated Homebuilder Management System (IHMS) is the industry's ONLY single-database, enterprise-wide home builder software suite.

Offering support for every home building activity, IHMS delivers full back-office and field operations functions directly to the desktop of every person in the building process.

Through the use of interactive maps, Mark Systems' LotVue apps, LotInsight and LotBuzz, allow developers and builders to easily visualize lot inventory, construction progress, sales status, budget

and schedule variances, architectural and other vital information.

Mark Systems' single database architecture means that residential construction information is delivered instantly and transparently to every team member.

About Constructech Magazine

As the only publication focused exclusively on the technology needs of the construction professional, Constructech magazine is the industry's advocate for driving technology initiatives forward and bringing visionaries together.

Focusing on both the commercial and residential sectors, Constructech takes the perspective of the construction professional in uncovering the true value of information technology tools, automated home technology options, and building control automation.
