

IBS Investment Bank CEO Releases Book About Spiritual Encounter

One of the nation's leading Investment Bankers has released a ground-breaking book which proves the authenticity of Jesus Christ and his message.

FORT LAUDERDALE, FLORIDA, USA, July 14, 2016 /EINPresswire.com/ -- South Florida-based private investment firm IBS Investment Bank (IBS, N.A.) today announced that its Chief Executive Officer, Dr. Jason H. Jackson, has released a book which uncovers the authenticity of Jesus Christ and his message. Jackson, who is widely known for his senior role in the national investment management firm, also serves as a Christian Pastor for a Fort Lauderdale-based, non-denominational church and Chairman for international redevelopment firm Jackson Global Initiative, CORP.

The IBS Investment Bank fund manager noted for structuring over \$100MM in landmark retail and healthcare investments apprised reporters in a private interview it was his personal encounter with Jesus which caused his life to be "radically transformed." Jackson, who holds a Doctorate in Business Administration is a high school dropout and son of an East-Indian immigrant. The author explained that after the divorce of his parents he began a stint of erratic behaviors that endangered the lives of others.

While serving in the United States Navy through Operation Enduring Freedom and Operation Iraqi Freedom, Jackson sought answers to the questions which caused him to walk away from his Christian faith. His research and discovery would ultimately be the foundation for his first published book.

[The Blueprint for Revealing Jesus](#) guides readers through 30 lessons, over 30 days, to uncover the historical evidence for the divinity and true purpose of Jesus Christ. Jackson's unique background lends the book a balance of historical accuracy with supernatural insight. Throughout the book, Jackson seamlessly tackles issues that often divide Christians and prevents non-believers from accepting Jesus.

"As a U.S. focused investor who has also served this country militarily, I believe that America is the globe's source of influence and provision. If there is a country who could positively realign the course of today's volatile world it is us. We must return to the principals which made us great by reinvesting in family, education, market transparency and our belief in GOD. As a critic and intellectual I struggled with the story of Jesus until the truth became insurmountable. This book represents a compilation of what provoked my belief in Jesus Christ," said Jackson.

Jason H. Jackson
