

Prime Minister of India Narendra Modi Visits CITD, Maluana S&T Park, Mozambique – An ICT Project Enabled by InKnowTech

PM Modi visited Centre for Innovation and Technological Development, Mozambique. InKnowTech has been involved in enabling this project for the last 6 years.

BANGALORE, KARNATAKA, INDIA, July 15, 2016 /EINPresswire.com/ -- The Prime Minister of India, Narendra Modi ended a 5-day tour of African countries on a high note. The objective of the tour was to strengthen India's partnership with African nations in the areas of Energy, Agriculture and ICT. During his state visit to Mozambique, the first leg of his Africa tour, [he visited the Centre for Innovation and Technological Development \(CITD\)](#), Maluana Science and Technology Park in Mozambique built through a Government of India aided initiative.

The Prime Minister tweeted that, "CITD is doing commendable work in harnessing skills of youngsters &

providing a conducive atmosphere for research, innovation & start-ups".

InKnowTech has been involved in this [key strategic ICT transformation role](#) of enabling and operating the CITD project, Maluana Science and Technology Park in Mozambique for the last six years. This project aims to place Mozambique firmly in the global ICT innovation map through creation of quality technology infrastructure, creation of skills and human capacity and development of incubation for start-ups. InKnowTech was responsible for conceptualization, design, implementation and operationalization of the ICT infrastructure for the CITD, Maluana Science and Technology Park.

In the words of Sanjay VP, CEO and Co-founder, InKnowTech, "CITD, Maluana Science and Technology Park is a feather in InKnowTech's cap. Some of our best engineers and project managers were involved at every stage of the project ensuring smooth execution. We are delighted to have played a key strategic role in developing this state of art IT park which is much talked about in Southern Africa and has attracted many multi-nationals to set up their operations here. Transforming a literally green field in to a high tech IT park was challenging and it brought in to play our key skills in

Network, NOC and Datacentre design, implementation and IT operations.”

Key Highlights:

- Transformation of a green field into a state-of-the-art Science and Technology Park and Centre for Innovation and Technological Development (CITD) spread across 10K sq.mt
- Fully equipped NOC, Technology Incubator and plug-and-play facilities
- Enables training to increase capacity by 200 students every year on Technology and Process
