

Global Government Cloud Market 2016 Share, Trend, Segmentation and Forecast to 2020

Government Cloud Market to Grow at a 45.16% ssCAGR Forecast to 2020

PUNE, INDIA, July 15, 2016 /EINPresswire.com/ -- Government organizations are looking forward to increase efficiency and improvement in service delivery. This is being effectively facilitated by adoption of cloud services. Government agencies look for security and scalability in their cloud services solutions. Other cloud services are being integrated with the existing private cloud, which is seen as a major driving force for [government cloud](#) market. The U.S. is leading the market with major policies formulated for the adoption of cloud solutions. Cloud implementation across different government organizations increases the cross collaboration between them and work collectively towards reaching a common goal and provide better services to citizens.

Complete report details @ <https://www.wiseguyreports.com/reports/474196-government-cloud-redefining-business-models-for-and-the-challengers-2015-2020> □

The report deals with global government cloud market for the period 2014-2020. This market is expected to grow at a CAGR of 45.16% for the forecast period.

The report also provides key insights into strategies, market shares and solutions of key vendors like Amazon Web Services, VMware, CISCO, IBM, Microsoft, Oracle, Rackspace, Google, Salesforce and CGI operating in government cloud market.

DRIVERS

The key factors driving this market are:

- Government policies towards adoption of cloud services and better security cloud solutions.
- Government provides the ability to easily share and collaborate at minimal cost.
