

# Medium Voltage Cables Industry Global Analysis by Region, Consumption, Competition and Technology

*Latest News on Medium Voltage Cables Industry Global Research Report 2016*

PUNE, INDIA, July 19, 2016 /EINPresswire.com/ -- Wiseguyreports.Com Adds "[Medium Voltage Cables](#) Market - Global Industry Analysis, Size, Share, Growth, Trends and Forecast 2016 – 2022" To Its Research Database. The market is anticipated to grow at a CAGR of 6.5% from 2016 to 2022, to garner over \$50 billion by 2022.

## Summary

Medium voltage cables are a necessary component for power transmission and distribution in the voltage range of 1000 V to 35 kV. These cables are used across industrial (power, oil & gas, mining, chemicals and others), renewables, and infrastructure sector. In the renewables sector, the cables are increasingly being used for wind and solar power generation. Moreover, the cables are widely used in infrastructure sector including railways, airports and sea ports for powering the lightning and security systems, and other purposes.

Medium voltage cables market is expected to witness a notable growth over the next 5-6 years. The growth would primarily be driven by rising electricity demand globally, particularly from developing countries such as China, due to rapid industrialization and urbanization. In developed economies, such as Europe, requirement of increasing power generation and expanding wind sector offers significant growth potential. However, fluctuating prices of metals, such as copper, aluminum, and others, restrain the market growth. Growing investments in renewables sector drives the demand for power infrastructure, offering significant opportunities for growth.

Request a sample of this report @ <https://www.wiseguyreports.com/sample-request/559768-world-medium-voltage-cables-market-opportunities-and-forecasts-2015-2022>

The report segments the market on the basis of installation, end user, and geography. On the basis of installations, the market is segmented into underground, submarine, and overhead. Key end users of medium voltage cables are industries, renewable sector, and infrastructure sector. Industries are further segmented into oil & gas, mining & metals, chemicals & petrochemicals, cement & manufacturing, utilities, and others; renewables sector into wind and solar; and infrastructure sector into transportation, and commercial. Geographically, the classification includes North America (U.S., Canada, and Mexico), Europe (U.K., Germany, and rest of Europe), Asia-Pacific (China, Japan, India, & rest of Asia-Pacific), and LAMEA (Brazil, Middle East, & rest of LAMEA).

The key market players are Prysmian SpA, General Cable Corporation, Nexans, NKT Cables, Sumitomo Electric Industries Ltd., Brugg Cables, Dubai Cable Company Private Limited, Leoni, Southwire, and TPC Wires & Cable Corporation.

## KEY BENEFITS:

The detailed analysis provides market intelligence about installation, user, and geography to enable precise investment decisions for stakeholders. This report entails a detailed quantitative and qualitative analysis of the market through 2015-2022, which assists in identifying the prevailing and future market opportunities. Value chain analysis provides key inputs on role of key intermediaries in the market, which is likely to help the stakeholders in devising appropriate strategies.

Porter's five force analysis highlights the potency of suppliers & buyers and describes the competitive scenario of the market, which is expected to facilitate efficient business planning. The analysis of most significant drivers, restraints, and opportunities helps to understand the overall market dynamics.

## MEDIUM VOLTAGE CABLES MARKET SEGMENTS:

### By Installation

Underground

Submarine

Overhead

By End User

Industries

Oil & Gas

Mining & Metals

Chemicals & Petrochemicals

Cement & manufacturing

Utilities

Others (Paper & Pulp, Wastewater Treatment, & Pharmaceutical)

Renewable Sector

Wind

Solar

Infrastructure

Transportation

Commercial

By Geography

North America

U.S.

Canada

Mexico

Asia-Pacific

China

Japan

India

Rest of Asia-Pacific

Europe

U.K.

Germany

Rest of Europe

LAMEA

Brazil

Middle East

Rest of LAMEA

Key Players:

Prysmian SpA  
General Cable Corporation  
Nexans  
NKT Cables  
Sumitomo Electric Industries Ltd.  
Brugg Cables  
Dubai Cable Company Private Limited  
Leoni  
Southwire  
TPC Wires and Cables Corporation
