Global Self-storage Software Market 2016 Analysis and Forecast to 2020

Self-storage Software Market to Grow at a 6.77% CAGR Forecast to 2020

PUNE, INDIA, July 19, 2016 /EINPresswire.com/ -- About the Self-Storage Software Market

Self-storage refers to a system of renting out storage space like private rooms, box storage, lockers, vehicle storage, or any other space unit to individuals or businesses, usually on a short-term basis. Self-storage software is used by storage owners and tenants for managing operations in the self-storage industry.
A large percentage of end-users use self-storage to store personal items like clothing, shoes, antiques, toys, wine, and other household goods. The use of self-storage for business purposes is less as the rent is four times higher than that of factories, grade C office space, and warehouses.

Research analysts forecast the Global Self-Storage Software Market to grow at a CAGR of 6.77% during the period 2016-2020.
