

INDMEX and FlightStats Announce Strategic Partnership to Improve Situational Awareness by Enhancing Data Services

Strategic partnership formed to improve runway safety and common operational picture for airports around the world

HERNDON, VA, USA, July 21, 2016 /EINPresswire.com/ -- INDMEX Aviation, a pioneer in airport surface safety systems and surface management software for airports, is pleased to announce that it has entered into an agreement with FlightStats to provide enhanced data services into its AirBOSS Web and Mobile platforms.

“By enhancing real-time aircraft surface position data with metadata rich content available through FlightStats enhanced subscription services, our new browser and mobile based applications - AirBOSS and OpsBoss applications, now provides not only real-time situational awareness but for the first time it's made possible for airports to achieve a holistic understanding of operations at their facilities,” said Carlos Nevarez, CEO at INDMEX Aviation. “With the AirBOSS Solution Suite, we can help our customers enjoy the benefits of advanced surveillance technologies combined with content rich data sets at reasonable price points.”

“When you combine FlightStats’ extensive and robust data set with

INDMEX's flexible web and mobile surface management systems, you give customers the benefit of enterprise-class cloud based applications that are easy and economical to implement and support”, said Jim Hetzel, Vice President, Aviation & Distribution at FlightStats. “FlightStats is excited to enter into this agreement with INDMEX in an effort to enhance safety and efficiency at airports and for airlines worldwide.”

ABOUT INDMEX Aviation

INDMEX Aviation develops web and mobile-based applications that make it easy and cost-effectively for airports to improve safety, manage resources and facilitate collaboration amongst stakeholders at an airport. Established by surveillance and information technology experts, INDMEX delivers a new standard in solutions to the aerospace industry.
