

Global Next-Generation Building Energy Management Systems Industry Analysis and Forecast to 2020

New Report on Global Next-Generation Building Energy Management Systems Market 2016 Edition

PUNE, INDIA, July 20, 2016 /EINPresswire.com/ -- Wiseguyreports.Com Adds "[Next-Generation Building Energy Management Systems](#) Market - Global Industry Analysis, Size, Share, Growth, Trends and Forecast 2016 – 2020" To Its Research Database. Analysts forecast the global BEMS market to grow at a CAGR of 11.05% during the period 2016-2020.

Summary

Next-Generation Building Energy Management Systems Industry

Energy management systems (EMS) use computer-aided tools to monitor, control, and optimize electrical loads. These systems facilitate users to conserve energy by monitoring and reducing energy consumption of electrical and electronic devices. The EMS can easily monitor energy consumption of buildings, industries, and homes. They also help in power management by tracking the real-time energy consumption of electronic devices and comparing it with historical data. The systems aid in improving communication between the device and the consumer. As a result, end-users can have a holistic view of their energy performance, which is compiled through a wide array of sensing and control devices, data feeds, and analytics software. Thus, the emerging technology EMS can facilitate better decision-making in terms of energy conservation.

Covered in this report

The report covers the present scenario and the growth prospects of the global BEMS market for 2016-2020. Energy management systems (EMS) use computer-aided tools to monitor, control, and optimize electrical loads. These systems facilitate users to conserve energy by monitoring and reducing energy consumption of electrical and electronic devices. The EMS can easily monitor energy consumption of buildings, industries, and homes. They also help in power management by tracking the real-time energy consumption of electronic devices and comparing it with historical data. The systems aid in improving communication between the device and the

consumer. As a result, end-users can have a holistic view of their energy performance, which is compiled through a wide array of sensing and control devices, data feeds, and analytics software. Thus, the emerging technology EMS can facilitate better decision-making in terms of energy conservation.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Next-Generation Building Energy Management Systems (BEMS) Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Honeywell
- Johnson Controls
- Schneider Electric
- Siemens

Enquire before buying this report visit @ <https://www.wiseguyreports.com/enquiry/526552-global-next-generation-building-energy-management-systems-2016-2020>

Other prominent vendors

- ABB
- Azbil
- CBRE Group
- CISCO Systems
- Cylon Control
- Daikin Industries
- Eaton Corporation
- Echelon
- Ecova
- EnerNOC
- General Electric Industrial Solutions
- IBM
- Lennox International
- Trane
- United Technologies
- GridPoint
- Elster

- Envizi
- eSight Energy
- Verisae
- DEXMA
- Lucid
- Ameresco
- Wipro EcoEnergy
- Verdant
- C3 Energy
- One Sight Solutions
- Hermetic Rush Services
- Energy System Technologies
- EnergyIQ

Market driver

- Need for energy conservation
- For a full, detailed list, view our report

Market challenge

- High initial cost
- For a full, detailed list, view our report

Industry trend

- Growing investment from big players
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Some points from table of content:

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Life cycle of BEMS
- Technological overview

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market drivers

- Increased need for cost reduction
- Need for energy conservation
- Rise in renewable energy installations
- Growing requirement for certifications
- High demand for BEMS retrofit in developed countries

PART 07: Impact of drivers

PART 08: Market challenges

About Us

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports understand how essential statistical surveying information is for your organization or association. Therefore, we have associated with the top publishers and research firms all specialized in specific domains, ensuring you will receive the most reliable and up to date research data available.
