

Saketa launches Timesheet V2.0 – Scale Timesheet according to the Organization's needs

Saketa announced an upgrade to their bestselling SharePoint Timesheet add-in.

SEATTLE, WA, UNITED STATES, July 20, 2016 /EINPresswire.com/ -- [Saketa](http://saketa.com), the brains behind some of the most engaging SharePoint apps, announced an upgrade to their bestselling SharePoint Timesheet add-in. With this version, the timesheet add-in can scale according to the needs of the organization and can provide advanced analytics on the time sheets submitted. Talking about the new version, Sashi Pagadala, Director of Products, says – "Since our launch in February, we have been clocking an impressive growth of over 100% month-over-month in terms of trials downloaded. We wanted our Timesheet add-in to cater to every organization, be it a start up with 10 employees or an enterprise with over 10000 users. This release is a major step in that direction."

Some of the enhanced features of the application in this release include:

- Store all your time sheet data in either a list or a database, based on the number of users accessing the application
- Ride the analytics wave with SSRS reports and gather insights with a range of descriptive and graphical reports
- Carry out in depth analysis on all projects for each client with our Client Summary feature
- Analyze impact of leaves taken by team members with our leave reports
- Review and approve only critical tasks while configuring automatic approvals of other tasks to save managers precious time
- Assign all team members to a project with just one click using the 'Add all members' button
- Resolve problems easily by logging all the errors faced while accessing the application
