

EEG and ECG Biometrics Market to Grow at CAGR of 12.37% 2016 and Forecast to 2020

*Global EEG and ECG Biometrics Market 2016
Share, Trend, Segmentation and Forecast to 2020*

PUNE, MAHARASHTRA, INDIA, July 22, 2016 /EINPresswire.com/ -- EEG biometric technology measures and records the electrical activity of the brain. These electrical patterns are analyzed for authentication and stored for further reference.

ECG is a diagnostic tool that helps assess the electrical activity of an individual's heart. When it is integrated with biometric solutions, it is used for authentication purposes as every individual has a different cardiac muscle movement and resultant electrical activity. Biometric technology helps identify individuals on the basis of their physical or behavioral features. It involves the verification and identification of both physiological and behavioral traits. It forms an additional layer of security for data access and individual identification as it is difficult to impersonate or fool this technology

Technavio's analysts forecast the global [EEG and ECG biometrics](#) market to grow at a CAGR of 12.37% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global EEG and ECG biometrics market for the period 2016-2020. To calculate the market size, the report considers revenue generated from the sales of the EEG and ECG analysis solutions. These include sensors, scanners, software, hardware, integrated solutions, and databases of EEG and ECG solutions provided by vendors.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global EEG and ECG Biometrics Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market

landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- iMotions
- NeuroKai
- NeuroSky
