Market Synopsis of Ticagrelor:

Market Scenario:

Ticagrelor is an antiplatelet drug which is a member of a section of pharmaceuticals which tackle the problem of platelet aggression. Ticagrelor outperformed an already established product like Clopidogrel by the SOC in the clinical trials in terms of end results and safety of the patients. The drug can also be used as an agent to reduce stent thrombosis. Ticagrelor is an efficient drug with no contraindications and dosage restrictions. Apart from all this Ticagrelor is a product of an already established entity AstraZeneca and thus will be provided enough market space to achieve high growth rates.

Key findings of this report

- Ticagrelor outperformed most of the existing brand and drugs in the market with better results

in the clinical trials.

- AstraZeneca's promotional push of this particular product has managed to make huge impact which can be seen on the revenue and the profits on the company.
- Ticagrelor already has a strong customer base in the European market with the drug registering revenue of about XX million dollars only 2 regions which are Europe and North America.
