

Smart Lighting Market by Connectivity Technologies – Forecast To 2021

Global Smart Lighting Market Information by lighting type by Application by components (sensors, relays timers) Sub Types - Forecast 2016-2021

PUNE, MAHARASHTRA, INDIA, July 26, 2016 /EINPresswire.com/ -- Study Objectives of Smart Lighting Market:

- To provide detailed analysis of the market structure along with forecast for the next 6 years of the various segments and sub-segments of the Global Smart Lighting Market
- To provide insights about factors affecting the market growth
- To Analyze the Global Smart Lighting Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the world
- To provide country level analysis of the market with respect to the current market size and RoW future prospective
- To provide country level analysis of the market for segments by lighting type, by application, by components and their sub-types.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Smart Lighting Market

Market Research Report

Taste the market data and market information presented through more than 50 market data tables and figures spread in 128 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Smart Lighting Market – Opportunities, Advantages and Forecasts To 2021](#)"

Market Synopsis of Smart Lighting Market:

Market Scenario:

Intelligent lighting systems are being widely touted as the future of the lighting industry. With the massive proliferation of lighting fixtures such as LEDs and others in the market, the smart lighting industry is set to dominate a plethora of applications ranging from commercial to outdoor applications. The market for global Smart Lighting is expected to reach up to \$ 59.973 billion by the end of the forecasted period and is expected to grow at a CAGR of ~19-21%.

Key Findings

The Europe Smart Lighting market is expected to report the highest CAGR during the forecasted period among all the regions; whereas, Asia Pacific will remain the largest market in 2021.

By application of Smart Lighting, the commercial applications is expected to witness highest CAGR of XX% during the forecasted period

In terms of components, sensors had the largest share in the global Smart Lighting market, and it is expected to grow at the highest CAGR among all the materials during the forecast period

Major Topics included in Table of contents as follows:-

1. Report Prologue
2. Global Smart Light And Control Market: Introduction
3. Global Smart Light And Control Market: Research Methodology
4. Global Smart Light And Control Market: Market Dynamics
5. Global Smart Light And Control Market: Market Factor Analysis
6. Global Smart Light And Control Market: By Type (Us \$ Million)
7. Global Smart Light And Control Market: By Applications (Us \$ Million)
8. Global Smart Light And Control Market, By Region Market Value & Volume Forecast (Us \$ Million)
9. Global Smart Light And Control Market: By Components
10. Global Smart Light And Control Market: By Connectivity
11. Global Smart Light And Control Market: Company Lanscape
12. Global Smart Light And Control Market: End Users
13. Global Smart Light And Control Market: Company Profile
14. Conclusion
15. Appendix

Key Players for Smart Lighting Market:

Aura Lights(Sweden), Cree (US), Crompton Greaves (India), Digital Lumens (US), Eyelighting International (US), Ge Lighting (US), Havells Sylavania (India), Koninkiljke Philips Nv (Netherland), Ledzed (Finland), Lemnis Lighting (Netherland) and others.
