Market Scenario:

The Global Video Surveillance market is expected to register a very high CAGR of about 18% during the forecast period. Video surveillance means the observation of activity or changes in environment from a distance with the help of electronic equipment such as CCTV cameras on a real-time basis. The information received through these devices can also be stored for later use.

Significant advancement in technology plays a major role in the growth and development in the Video Surveillance Market. Cloud based Video Surveillance has also become increasingly popular among the end users across the globe. Heavy investment in R&D and technological development has resulted in high quality products with increased efficiency. Developed networking services and increasing need of public safety is expected to drive the market. Moreover, the smart city projects are one of the biggest prospects for the implementation of video surveillance in the coming years.

Segments:

The Video Surveillance market can be segmented on the basis of application: Infrastructure, Commercial, Institutional, and Defense. On the basis of components the market can be categorized into equipment, software, and services. The equipment market has been further sub-divided into types namely cameras, monitors, and storage systems.

Key Players for Video Surveillance Market:

Business expansion and partnership & collaboration are strategies taken on by the industry leaders so that they can expand their business extensively in the potential markets. The key players in the Video Surveillance Market are: Zhejiang Dahua Technology Co., Axis Communications AB (Sweden), B Ltd. (China), Hangzhou Hikvision Digital Technology Co., Ltd. (China), (South Korea), Nice Systems, Limited (Israel), and Infinova Corporation (U.S.). FLIR

Systems Inc. (U.S.), Honeywell Security Group (U.S.), Avigilon Corporation (Canada)
