

# Intratec Reveals Costs of Butanol Production From Propylene and Syngas

---

*New report details capital investment and operating costs of a Butanol Plant*

HOUSTON, TX, USA, July 27, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to announce a new report examining the costs of production of Butanol.

The new report presents an economic analysis of n-Butanol production from propylene and syngas, assuming a plant located on the US Gulf Coast. The process under analysis is similar to the LP OXO technology jointly licensed by JM Davy and Dow, employing Selector 30 catalyst.

This detailed study presents plant construction cost, Butanol production cost breakdown, and raw materials consumption figures. It may be extended with supplemental analyses, such as Production Unit Cost Breakdown per Pieces of Equipment and Process Flow Diagrams & Equipment List, among others.

The new study is now part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards

The content of the new report can be checked at [www.intratec.us/analysis/butanol-e21a](http://www.intratec.us/analysis/butanol-e21a)

For other Intratec reports focused on the costs of production of Butanol via other manufacturing processes, different raw materials, and/or different locations, visit [www.intratec.us/analysis/butanol-production-cost](http://www.intratec.us/analysis/butanol-production-cost)

About Intratec Solutions LLC

Intratec ([www.intratec.us](http://www.intratec.us)) is an independent research and leading advisory firm, recognized for excellence in the evaluation of chemical markets and the economics of industrial processes. Since 2002, the production cost reports and online databases we provide have boosted the early recognition of promising research and capital investment opportunities in the chemical, petrochemical, oil, plastic, renewable, alternative energy & allied sectors.
