

Global Advanced HVAC Controls Market 2016 Share, Trend, Segmentation and Forecast to 2020

global advanced HVAC control market to grow at a CAGR of 8.67% during the period 2016-2020.

PUNE, MAHARASHTRA, INDIA, July 26, 2016 /EINPresswire.com/ -- About Advanced HVAC Control

HVAC control systems reduce energy consumption and enhance the performance of an HVAC unit. Field devices, floor-level controllers, sensors, and building-level controllers are the key types of HVAC control systems. These systems are extensively used in the residential, industrial, and commercial sectors worldwide.

Advanced HVAC controls play a significant role in enhancing the operability of high-performance HVAC systems. These systems involve computerized, intelligent network of electronic devices designed to monitor and control the HVAC systems. Advances in technology allow integration, automation, and optimization of HVAC systems. Advanced HVAC controls can efficiently reduce operational and maintenance costs and energy consumption of HVAC systems. The traditional building management system (BMS) is the key focus of advanced HVAC controls since the advent of direct digital control (DDC) systems.

The analysts forecast the global advanced HVAC control market to grow at a CAGR of 8.67% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global advanced HVAC control market for 2016-2020. To calculate the market size, the report considers revenue generated through the following:

- Sales of advanced HVAC control systems
- Support and maintenance services

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Advanced HVAC Control Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Honeywell International
- Johnson Controls
- Mitsubishi Electric
- Schneider Electric
- Siemens

Other prominent vendors

- Azbil
- Delta Controls
- Distech Controls
- Innotech Systems
- KMC Controls
- NanoSense
- Reliable Controls
- Sauter
- Trane
- Triatek

Market driver

- Accelerating demand for HVAC equipment

- For a full, detailed list, view our report

Market challenge

- High initial investment
- For a full, detailed list, view our report

Market trend

- Integration of lighting and HVAC controls
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

You can request one free hour of our analyst's time when you purchase this market report. Details are provided within the report.

Table of Content

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Five forces analysis

PART 06: Market segmentation by product

- Global advanced HVAC control market by product 2015

- Global advanced HVAC control market by product 2020
- Global advanced HVAC control market by sensors
- Global advanced HVAC control market by field devices
- Global advanced HVAC control market by floor-level and building-level controllers

PART 07: Market segmentation by end-user

- Global advanced HVAC control market by end-user
- Global advanced HVAC control market by end-user 2015-2020
- Global advanced HVAC control market by non-residential users
- Global advanced HVAC control market by residential users

PART 08: Geographical segmentation

- Global advanced HVAC control market by geography
- Advanced HVAC control market in APAC
- Advanced HVAC control market in EMEA
- Advanced HVAC control market in Americas

PART 09: Market drivers

- Accelerating demand for HVAC equipment
- Growth in awareness of energy conservation
- Rise in construction activities
- Need for energy-efficient HVAC systems
- Surge in replacement demand

PART 10: Impact of drivers

PART 11: Market challenges

- Need to comply with stringent government regulations and industry standards
- High initial investment
- Lack of awareness about advanced HVAC controls
