

Smart Energy Market to Grow at CAGR of 14.91% 2016 and Forecast to 2020

Smart Energy -Market Demand, Growth, Opportunities and Forecast 2016 - 2020

PUNE, INDIA, July 27, 2016 /EINPresswire.com/ -- About [Smart Energy](#) Market

The smart energy market can be simply defined as the one that constitutes devices that have inbuilt artificial intelligence to carry out their daily activities without any human interference. The smart energy market comprises multiple technologies such as smart grids, smart homes, and smart solar and digital oil fields. Smart grids are systems that use digital communication technologies in electricity generation, transmission, and distribution, thereby automating the value chain. Smart grids comprise devices and technologies such as smart meters, grid optimization, distributed generation, and storage. Smart homes are equipped with modern technologies such as lighting and heating that can be controlled remotely by smart phones or remotes.

The analysts forecast the global smart energy market to grow at a CAGR of 14.91% in terms of revenue during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global smart energy market for 2016-2020.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Smart Energy Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- GE Energy
- Itron
- Landis +Gyr
- Sensus
- Siemens
- ABB
- S&T

Market driver

- Rising investments in smart grid technologies
- For a full, detailed list, view our report

Market challenge

- High cost of upgrading smart grids
- For a full, detailed list, view our report

Make an Enquiry before Buying @ <https://www.wiseguyreports.com/enquiry/533535-global-smart-energy-market-2016-2020>

Market trend

- High rate of deployment of smart grids
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Content

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Technological overview
- Market overview
- Market size and forecast by revenue
- Five forces analysis

PART 06: Market segmentation by application

- Global smart energy market by technology 2015
- Global smart energy market by technology 2020
- Global smart energy market by technology 2015-2020
- Global smart grid market 2015-2020
- Global digital oil field market
- Global smart solar market 2015-2020
- Global HEMS market

PART 07: Geographical segmentation

- Global smart energy market by geography
- Smart energy market in Americas
- Smart energy market EMEA
- Smart energy market in APAC

PART 08: Key leading countries

PART 09: Market drivers

PART 10: Impact of drivers

PART 11: Market challenges

PART 12: Impact of drivers and challenges

PART 13: Market trends

PART 14: Vendor landscape

- Competitive landscape
- Other prominent vendors

PART 15: Key vendor analysis

- GE Energy
- Itron
- Landis + Gyr
- Sensus
- Siemens
- ABB
- S&T
