Market Scenario

The Protective relay market is expected to register a CAGR of around 6% during the forecast period. Ongoing Substation Automation projects are expected to induce growth in the Protective Relay market. The growing need of Electric Power in developed as well as developing nations will result in an imminent growth in the Protective relay market.

Segments

The Protective Relay Market can be categorized on the basis of Voltage as: High, Medium and Low. On the basis of Protection Mechanism it can be categorized as: Feeder, Transmission Line, Motor, Transformer, Generator, and Busbar. On the basis of End User it can be segmented as: Marine, Renewable, Utilities. On the basis of regions it can be segmented as North America, South America, Europe, Asia-Pacific, Middle East and Africa.
