Nationwide - Adele's message is that you can Make Your Mind Work For You...Instead of Against You, using Instant Subconscious Reprogramming. Her Counseling, Coaching, and MBBR Medical Hypnotherapy practice unlocks the mystery of how our own minds, specifically our subconscious, create our lives, not external events.

Now we can transform our lives instantly by changing the mind creating it. The process works on all ages and all issues including PTSD and addictions. Change is easy and immediate with Custom Designed Protocols for each issue. It is just as successful by phone and Skype as it is in person.

Our subconscious mind is a million times more powerful than our conscious mind and controls and initiates all aspect of our lives. It is pre-programming by our families and society with beliefs, limitations and behaviors that are not even our own by age six. 75% of it is negative.

Neuroscience tells us we are living unconsciously out of our subconscious mind's programs 95% of the time, habitually repeating self-sabotaging behaviors.

She developed a unique modality, Mind Body Behavioral Reprogramming to stop Repetitive Life Patterns by removing lifetime programs and trauma by restructuring the subconscious instantly.

Erase and Replace beliefs, programs, conditioning, behaviors, emotions, addictions, memories, traumas, and fears sabotaging your life. Be the person you want to be....Have the life you want to have. Look for her new book, "We Don't Achieve Our Goals Because We're Programmed Not To" coming out in Kindle edition in the next few months.
