

First Glamour Live Cam Studio opens in Los Angeles

Studio 20 Opens First Cam Studio in US, located in Hollywood, next to Academy of Motion Arts

LOS ANGELES, CALIFORNIA, UNITED STATES, July 31, 2016

/EINPresswire.com/ -- The World's Leading Live Cam Operation "Studio 20" from Romania is opening their first US [Live Cam Studio](#) in Los Angeles

Studio 20 currently has 5 successful locations in Romania. The first Studio 20 Location opened in early 2013 and, at over 10,000 square feet, the second location which opened in 2014 is still one of the largest live cam studios in Europe.

With their US addition, they now have 6 locations globally including Bucharest, Timisoara, Cluj and Los Angeles.

Studio 20 credits their growth and success to the way they run their business and the unique way in which they train all of their models towards Glamour Live Modeling and not the classical "camgirl" approach. The

success of their methods is evident in their annual revenue which has now exceeded \$5,000,000 USD as well the awards their models continue to receive.

This is what some of the most important live cam sites had to say about Studio 20 LA:

"We hope this studio will be the best as they are in Romania and the LiveJasmin team will do everything what it takes to succeed with the Models involved in the LA operation." – Karoly Papp, CEO Docler Holding, www.livejasmin.com;

"The issue I have always had with Studios in the EU is that using them changes the look of our website to have a more foreign feel. With this Los Angeles operation, Studio 20 has changed all of that and I can't wait to plug their US Models into our site" – Eric Wexel, Managing Partner www.freewebcams.com;

"Flirt4Free has had the pleasure of working with Studio 20's international studio(s) for some time now. It would be difficult to find a more professionally owned and operated studio for Internet cam broadcasting anywhere in the world." – Gregory Clayman – President and CEO VS Media,

“Based on our success in opening profitable studios in Romania and training successful models of all nationalities, I chose to invest my money and efforts to prove that Studio 20's business model and expertise can work in the United States. My first venture in the US is strategically located in the heart of Los Angeles California just a few blocks from the famous Hollywood Walk of Fame on the same

street that the Academy Awards are handed out. The renovations are almost complete, support team was trained for over a month in our existing locations and our state-of-the-art 5,000 square foot studio will officially open on June 15th. We have a lot of eyes on my newest location and some people doubt the US acceptance of the “Studio” business model and its ability to succeed in America. I can't wait to have my US Team and our Los Angeles location prove them all wrong.” Mugur Frunzetti, the company's CEO said.
