

Network with GDELS, BAE Systems Hägglunds, Rheinmetall, ARTEC, Lockheed Martin at Future Armoured Vehicles Survivability

Future Armoured Vehicles Survivability 2016 will address recent industry developments to optimise your armoured vehicle platform for maximum protection.

LONDON, ENGLAND, UNITED KINGDOM, August 15, 2016 /EINPresswire.com/ -- Could you benefit from meeting active buyers from the [military armoured vehicle programmes](#), as well as technical experts and platform engineers from leading OEMs, while there is still a chance to influence their procurement decisions?

If the answer is yes, then don't miss the [Future Armoured Vehicles Survivability 2016](#) conference taking place on 23rd - 24th November 2016 in London, UK.

This unique conference focuses on the [collaboration between military and industry](#), inviting not only the programme managers and operational commanders at the forefront of armoured vehicle procurement and use, but also, the lead engineers, chief scientists and technical directors from the vehicle manufacturers themselves, who create the platforms and technologies at the heart of armoured vehicle protection.

Confirmed speakers presenting high level briefings at Future Armoured Vehicles Survivability 2016 includes:

Military Speakers
