

# Global Mobile Broadband Market 2016 Analysis and Forecast to 2020

---

*Global Mobile Broadband Market Analysis and Forecasts to 2016*

PUNE, INDIA, August 1, 2016 /EINPresswire.com/ -- Access Report: Global [Mobile Broadband](#) Market in Public Safety Sector 2016-2020

Wise Guy Reports analysts forecast the global mobile broadband in public safety market to grow at a CAGR of 8.13% during the period 2016-2020. Due to the bandwidth limitations of the traditional voice-centric LMR networks, public safety agencies are interested in leveraging commercial cellular network technology to support the growing requirement of broadband applications. Considering its booming network, spectrum flexibility, and performance metrics, LTE has emerged as the leading entrant for public safety mobile broadband networks.

Although LTE technologies are efficient in offering data applications, the market is in its nascent stage. Moreover, LTE will need a considerable amount of time to carve a niche in the global public safety industry, with its counterparts consolidating their presence and expanding in the market. To stay competitive, the public safety device vendors have to work toward increasing awareness of the features of mobile broadband consumer devices and equipment.

Covered in this report

The report covers the present scenario and the growth prospects of the global mobile broadband in public safety market for 2016-2020. To calculate the market size, considers the revenue generated through the sales of mobile broadband technologies, infrastructure equipment, user devices, and services. The report also considers the revenue generated from the public sector and private sector players.

Learn from Sample Report @ Global Mobile Broadband Market in Public Safety Sector 2016-2020

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Wise Guy Reports report, Global Mobile Broadband in Public Safety Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Digisat
- General Dynamics Mission
- Harris
- Motorola
- Alcatel-Lucent

- Ericsson
- Huawei
- Thales
- ZTE
- AT&T
- Iridium
- Verizon

#### Other prominent vendors

- Airbus
- Airspan Networks
- Alvarion
- Cisco
- Firetide
- Gilat
- Ground Control Systems
- IBM
- Lockheed Martin
- Mesh Dynamics
- NetMotion Wireless
- Nokia Siemens Networks
- Northrop Grumman
- Tata Advanced Systems

#### Market driver

- Advances in mobile broadband technology
- For a full, detailed list, view our report

#### Market challenge

- Low adoption of LTE in developing countries
- For a full, detailed list, view our report

#### Market trend

- Interoperability of technology among public safety networks
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

#### PART 01: Executive summary

- Highlights

#### PART 02: Scope of the report

#### PART 03: Market research methodology

- Research methodology

- Economic indicators
- PART 04: Introduction
- Key market highlights
- PART 05: Market landscape
- Market overview
  - Market size and forecast
  - Five forces analysis
- PART 06: Market segmentation by end-users
- Global mobile broadband in public safety market by end-users
- PART 07: Market segmentation by solution
- Global mobile broadband in public safety market by solution
- PART 08: Market segmentation by application of public sector
- Global mobile broadband in public safety market by application of public sector
- PART 09: Market segmentation by geography
- Global mobile broadband in public safety market by geography
- PART 10: Market drivers
- PART 11: Impact of drivers
- PART 12: Market challenges
- PART 13: Impact of drivers and challenges
- PART 14: Market trends
- PART 15: Vendor landscape
- PART 16: Key vendor analysis: Consumer devices

## About Us

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports understand how essential statistical surveying information is for your organization or association. Therefore, we have associated with the top publishers and research firms all specialized in specific domains, ensuring you will receive the most reliable and up to date research data available.
