*"For Intrigue and Suspense The Latina President Rivals Anything I've Ever Read About Campaign Politics"--former Senate Majority Leader Tom Daschle*

WASHINGTON, DC, U.S., August 8, 2016 /EINPresswire.com/ -- One of the hottest political novels of this hottest of political summers is available on Kindle this week.

"The Latina President...and The Conspiracy to Destroy Her," a debut novel by veteran political strategist Joe Rothstein, has hit the shelves in tandem with the Republican and Democratic political conventions and the home stretch months of the 2016 campaign for the White House.

The novel finds a Mexican-American woman in the White House fighting for financial system reform against determined and deadly adversaries. This is "Powerful fiction, directly relevant to growing risks now facing us as individuals and the stability of our entire global financial system," according to Senator Don Riegle of Michigan, who for many years chaired the U.S. Senate Banking Committee.

Kirkus Reviews says The Latina President is built around "An unusually deep plot for a political thriller...An enthralling protagonist at the heart of a gripping tale. A suspenseful--and topical--tale of White House intrigue." Kirkus Reviews has selected The Latina President for placement in its fall, 2016 catalog.
