Analysts forecast the global earthing equipment market to grow at a CAGR of 6.12% during the period 2016-2020.

PUNE, INDIA, August 9, 2016 /EINPresswire.com/ -- Global Earthing Equipment Industry

Analysts forecast the [Global Earthing Equipment Market](#) to grow at a CAGR of 6.12% during the period 2016-2020. The earthing system involves a combination of protective devices, such as residual current devices and fuses. The purpose of these devices is to ensure that no one should come in physical contact with any metal whose relative potential exceeds the threshold level of approximately 50 V.

Earthing equipment is vital to the proper operation of electrical systems and to preserve their integrity. The market is projected to grow during the forecast period because of the need to meet the rising electricity demand and construction activities globally and the revamping of existing power grids.
