

Touchless Sensing Market 2016 market share, Competitor Strategy and Forecast to 2027.

Global Touchless Sensing Market Information, by Sensor (Proximity, Infrared), by Technology, by Application Vertical - Forecast 2016-2027

PUNE, MAHARASHTRA, INDIA, August 10, 2016 /EINPresswire.com/ -- Study Objective of Touchless Sensing Market

“

Eyesight Technologies Ltd. (Israel), Microsoft Corporation (U.S.), Qualcomm Inc. (U.S.), Microchip Technology Inc. (U.S.), Intel (U.S.), Elliptic Labs Inc., (Norway)among others.”

Market Research Future

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Touchless Sensing Market
- To provide insights about factors affecting the market growth
- To analyze the Global Touchless Sensing Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)

- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by Sensor, by Technology, by applications vertical and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.

Market Scenario

Touchless Sensing is an innovative method which allows users to interact with the devices thereby performing certain tasks without having any physical contact. Touchless sensing has emerged as very helpful method in IT industry and apart from IT industry, it has various applications in various industries. Hygiene factor and technological advancement are some key drivers for this market. This market has been valued at US \$XX billion in the year 2015, which is expected to grow at US \$XX billion by the end of forecasted period.

Market Segmentation

Segmentation by Sensor:

- Proximity & infrared sensors
- image sensors among others.

Segmentation by Technology:

- Touch less bio-metric (face recognition, eye recognition, touchless fingerprint recognition, voice recognition),

- touch-less sanitary equipment (trashcans, hand dryers, flushes among others)

Segmentation by Application Vertical:

- BFSI
- Government
- Automotive
- Healthcare
- Consumer Electronics among others.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Touchless Sensing Market Research Report- Global Forecast 2027"

Industry News

- In June 2016, NXP Semiconductors expanded the NFC portfolio for various applications.
- In July, 2014 InvenSense Inc. acquired Movea which is touchless and motion sensing developer.

Key players

The prominent players in the market of touchless technology are- Eyesight Technologies Ltd. (Israel), Microsoft Corporation (U.S.), Qualcomm Inc. (U.S.), Microchip Technology Inc. (U.S.), Intel (U.S.), Elliptic Labs Inc., (Norway), CogniVue Corporation, (Canada), InvenSense (U.S.), Crossmatch (U.S.), NXP Semiconductors (Netherlands) among others.

LED & OLED Display Market Research Report- Global Forecast to 2027

The major growth driver of LED & OLED Display Market includes growing acceptance of LED in commercial & residential sectors, growing demand for flexible display products, and government regulations such as mandating OLED and LED lighting in public places among others. Hence the market for LED & OLED Display is expected to grow at XX% CAGR (2016-2027). However, lack of skilled employment and complex manufacturing process are the major factors which are hindering the growth of LED & OLED Display Market. Know more about this report @

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
