

Wireless Monitoring and Surveillance Market Development, market Trend, Segmentation and Forecast to 2027.

Global Wireless Monitoring and Surveillance Market, by Technology (Video, IP), by End-user (Bank, Government (law enforcement)), by Component - Forecast 2027

PUNE, MAHARASHTRA, INDIA, August 10, 2016 /EINPresswire.com/ -- Objective of [Wireless Monitoring and Surveillance Market](#) Study:

Honeywell (U.S.), Axis communications (Sweden), Bosch security systems (Germany), Cisco systems (U.S.), Micropower technologies (U.S.), Pelco (U.S.), Aruba networks (U.S.) and among others."

Market Research Future

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the global Wireless Monitoring and Surveillance Market.
- To provide insights about factors affecting the market growth.
- To Analyze the Wireless Monitoring and Surveillance Market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main

geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).

- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by component, technology, applications and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.

Market Scenario

The major growth driver of Wireless Monitoring and Surveillance Market includes growing demand for better & more cost-effective security management, fast-moving growth of network video market and new strict government initiatives on technology compliance among others. Hence the market for Wireless Monitoring and Surveillance is expected to grow at XX% CAGR (2016-2027). However, expensive territory and limited central monitoring station are the factors which are hindering the growth of Wireless Monitoring and Surveillance Market.

Segments

Global Wireless Monitoring and Surveillance Market can be segmented as follows:

Segmentation by Components:

- Digital camera,
- Network nodes,
- Servers
- Monitoring stations among others.

Segmentation by Technologies:

- Video and IP technologies among others.

Segmentation by End-users:

- Shopping malls/commercial complex
- Banks/financial institutions
- Government (Municipalities, Military, law enforcement),
- Educational institutes
- Transportation among others

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Wireless Monitoring and Surveillance Market Research Report- Global Forecast to 2027"

Industry News:

- Bosch Group has announced in June 2016 about its partnership with Protectas SA which is a leading security company of Sweden to provide better remote video monitoring services to the customers.
- Honeywell, one of the leaders in wireless connectivity has announced in February, 2016 about its new development Micro RAE gas monitor which is industry's first wireless 4-gas monitor that can work with all types of wireless communication protocol. The product need to be connected to smartphone to transmit gas which is been used to read over a cellular network

Key Players

Some of the major players in Global Wireless Monitoring and Surveillance Market include Honeywell (U.S.), Axis communications (Sweden), Bosch security systems (Germany), Cisco systems (U.S.), Micropower technologies (U.S.), Pelco (U.S.), Aruba networks (U.S.), Panasonic Corporation (Japan), and D-link (U.S.) Corporation among others.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
