

Intratec Discloses Costs of Polypropylene Homopolymer Production

New report details capital investment and operating costs of a PP plant

HOUSTON, TX, USA, August 11, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to announce a new report examining the costs of production of Polypropylene.

This new report analyses the economics of Polypropylene (PP) Homopolymer production from polymer grade (PG) propylene in the USA. The process examined in the report is similar to INEOS INNOVENE and JPP HORIZONE. This detailed study presents plant construction cost, Polypropylene production cost breakdown, and raw materials consumption figures. It may be extended with supplemental analyses, such as Process Flow Diagrams & Equipment List, Utilities Consumption Breakdown, and analyses providing capital & production costs in several countries.

The new study is now part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards.

The content of the new report can be checked at www.intratec.us/analysis/pp-e15a

For other Intratec reports focused on the costs of production of Polypropylene via other manufacturing processes and/or different locations, visit www.intratec.us/analysis/polypropylene-production-cost

About Intratec Solutions LLC

Intratec (www.intratec.us) is an independent research and leading advisory firm, recognized for excellence in the evaluation of chemical markets and the economics of industrial processes. Since 2002, the production cost reports and online databases we provide have boosted the early recognition of promising research and capital investment opportunities in the chemical, petrochemical, oil, plastic, renewable, alternative energy & allied sectors.
