

Intratec Reveals Costs of Methional Production from Acrolein and Methyl Mercaptan

New report details capital investment and operating costs of a Methional plant

HOUSTON, TX, USA, August 15, 2016 /EINPresswire.com/ -- Intratec Solutions LLC, the leading source for chemical markets data and production cost reports, is pleased to announce a new report examining the costs of production of Methional.

The new report presents the economics of Methional production from acrolein and methyl mercaptan in the USA, via a typical process. This detailed study presents plant construction cost, Methional production cost breakdown, and raw materials consumption figures. It may be extended with supplemental analyses, such as Utilities Consumption Breakdown, Plant Construction Cost for Different Capacities, and analyses providing capital & production costs in several countries.

The new study is now part of Intratec portfolio of more than 900 up-to-date, independent and cost-effective reports. Intratec studies can be purchased online at Intratec website, via credit cards.

The content of the new report can be checked at www.intratec.us/analysis/methional-e11a

For other Intratec reports focused on the costs of production of Methional via other manufacturing processes, different raw materials, and/or different locations, visit www.intratec.us/analysis/methional-production-cost

About Intratec Solutions LLC

Intratec (www.intratec.us) is an independent research and leading advisory firm, recognized for excellence in the evaluation of chemical markets and the economics of industrial processes. Since 2002, the production cost reports and online databases we provide have boosted the early recognition of promising research and capital investment opportunities in the chemical, petrochemical, oil, plastic, renewable, alternative energy & allied sectors.
