

CDS Release of its Next Generation asTech™ Device

Today, CDS announced the release of the next generation asTech2™ diagnostic tool.

ANAHEIM, CALIFORNIA, UNITED STATES, August 10, 2016 /EINPresswire.com/ -- Today, CDS announced the release of the next generation [asTech2™ diagnostic tool](#). The new asTech2™ device, which began shipping last month, will cover nearly all makes and models, 2008 and newer. In addition to launching a new mobile app, the company also added new features that include Wi-Fi and Bluetooth capability. NACE show attendees will have the opportunity to learn more about the product and order the asTech2™ device at the Company's Booth #593. The next generation asTech2™ will also be on display in I-CAR Stage #565, as well as the FCA (Fiat Chrysler Auto) booth #375.

The asTech2™ device was awarded 2nd place in the collision repair and refinish product category at the new product showcase at this past year's SEMA show. The Company received [a significant number of pre-orders](#) for the product as a result, the majority of which have already been filled.

Said Dan Young, VP Sales and Marketing of CDS: "The next generation asTech2™ device represents a significant step forward in our Company's pursuit to provide the best diagnostic services to the collision repair industry". Young added "With today's vehicles, it is becoming increasingly difficult to perform a proper repair without the help of trained specialists in the area of diagnostics, as evidenced by 4 of the top auto manufacturers' recent pre and post diagnostic scan position statements."

About CDS

[Collision Diagnostic Services](#), (CDS), founded in 2010, is the leading provider of remote diagnostic solutions and services to the collision industry. CDS provides cutting-edge, expert diagnostics using OEM tools to provide safe and accurate repairs. CDS provides remote diagnostics using its patented asTech™ device and also provides access to ASE-Certified Master Technicians, who are trained to be virtual diagnosticians. CDS Master Technicians can service many trouble codes remotely and provide real-time assistance to shop technicians at the vehicle when needed.
