

Coated Flat Glass Technologies and Application Market to Reach \$34.5 billion with 6.0% CAGR Forecast to 2020

Coated Flat Glass Technologies-Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021

PUNE, INDIA, August 13, 2016
/EINPresswire.com/ -- [Coated Flat Glass Technologies and Application Market](#)

Summary

Wiseguyreports.Com Adds “Coated Flat Glass Technologies and Application-Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021” To Its Research Database

Major players in the global coated flat glass market in their respective regions includes

Asahi Glass Co., Ltd., Central Glass Co., Ltd., China Glass Holdings Ltd., CSG Holding Ltd., Euroglass GmbH. Guardian, NSG-Group., PPG Industries. , Saint-Gobain. , Sangalli., Sisecam, SYP Glass Group Co., Ltd. and Xinyi.

Wiseguyreports Research projects that the global market for coated flat glass will [grow](#) from nearly \$25.7 billion in 2015 to nearly \$34.5 billion by 2020 at a five-year CAGR (2015 to 2020) of 6.0%. Coated flat glass market is prevalent in Europe and North America, followed by Asia-Pacific due to increasing construction activities and vehicle sales in those regions.

A glass is coated to enhance its aesthetic appearance and inculcate advanced properties to resist scratch and corrosion. A coated flat glass has unique properties of transmission/reflection/absorption for solar protection regulating energy consumption and carbon dioxide (CO₂) emissions.

Glasses are surface coated to enhance its appearance and to provide many of the unique advanced properties of glass products such as reflection/transmission/absorption properties, scratch resistance, corrosion resistance and low maintenance.

The recovery in economic conditions and increase in per capita income is driving the market. New developments in the glass coating technologies have ensued to lessen the global energy consumption, mainly from architectural buildings and automotive sectors with less CO2 emissions.
