

5 Wedding Tips For the Groom

So, you built up the courage to ask her, she said yes with only a small pause, and now you're getting really close to her big day.

LA, CA - CALIFORNIA, USA, August 15, 2016 /EINPresswire.com/ -- To impress your lady, who will by the end of your (her) wedding day, will be your wife for life, till death you do part, you need to make sure a few imperative things happen.

Aotearoa Beauty have "On the Day" Wedding Tips for you, the groom:

1. Start the day with a hearty meal. It's going to be a very long day and a full belly is only going to help you get through it. Start it with a big healthy meal and coffee with some mates, male family members, the groomsmen, and have a bit of a wedding day bonding session.

2. Don't drink too much the night before, and get a solid night sleep. The last thing you want on a day where you need to look and be the best you can be is a massive hangover.

3. Make sure the groom and groomsmen are properly groomed. Make sure everyone's hair is trimmed and tidy the day of the wedding, or the day before at least. Ensure the boys give themselves a proper all-over trim, from [ears and eyebrows](#) right through to using a [nose hair trimmer](#). Manscape and reap the benefits of a [blackhead remover kit](#).

4. Make sure your day is planned. Things hopefully won't go wrong on the day, but if you can be on top of everything that you need to be, then you should have a little spare time to put out any fires if things go wrong, or at least delegate one of your groomsmen to do so.

5. Do your final checks for flights and accommodation. If you have some special accommodation booked for your wedding night, ensure someone (if not you) can check in to the room for you. If you are leaving for your honeymoon the day after the wedding, then chances are you can check in online for flights, this will save some time the morning after your big day.
